LET'S GO!

frē Galaxy S III
PRODUCT OVERVIEW

frē FOR GALAXY SIII

Introducing out-of-this-world protection for the out-of-this-world smartphone. LifeProof frē protects Galaxy SIII from drops, dirt, splashes and full submersion, while allowing complete access to all features and functions.

And frē goes beyond protecting Galaxy SIII from day-to-day hazards. No matter how extreme the activity, journey or adventure, frē for Galaxy SIII gives users the freedom to live and share the action at hand — without worry.

PROTECTION THAT EXPANDS YOUR GALAXY

Slim, sleek and refined, frē stays true to the smooth, gentle curves that users love about their Galaxy SIII. Yet, it delivers levels of protection and functionality not found in any other all-protective case.

Along with the sleek size, frē boasts a barely-there screen protector, optical-glass lens and an enhanced speaker ports. Those features plus LifeProof's four-proof protection equip Galaxy SIII for out-of-this-world mobility.

- The most functional, all-protective Galaxy SIII case available
- Designed to work seamlessly with Galaxy SIII
- Enables use everywhere, everyday for everything

FEATURES

Design

The thinnest, lightest all-protective case ever made for Galaxy S III

Function

Full screen protection and complete access to every button, control and port

Aesthetics

Clear case back shows off Galaxy S III's natural colors

Profile

Slim, sleek case stays true to Galaxy S III's smooth, gentle curves

Acoustics

LifeProof's Sound Enhancement System channels sound through the case back into the speaker ports for maximum acoustic output and clarity

Optics

LifeProof's CrystalClear anti-reflective optical-glass lens ensures distortion-free photography

Materials

Crafted using advanced materials and processes for optimal protection, durability and style

LAB TESTED

Tested to meet these specifications — and to exceed expectations

MIL STD 810-516

Military Standard 810F-516 is the U.S. Military Standard that addresses the functional drop. This standard requires that a tested item can physically and functionally withstand the relatively infrequent, non-repetitive shocks encountered in handling, transportation and service environments.

Essentially, frē shields the Galaxy SIII from the drops, vibrations, bumps and fumbles users encounter day to day.

Water Test

Every LifeProof case is water tested at the factory. Then, they're sent to an independent agency for additional testing, including a second water test on randomly selected units. Only after passing these tests is a unit shipped. Cases that fail are scrapped.

LifeProof takes this extra step to instill maximum consumer confidence and to ensure that every case is leak free.

IP-68

IP-68 is the international standard for water and dust ingress protection. IP stands for Ingress Protection.

6 is the highest rating for solid particles. 8 is the highest rating for liquids. IP-68 rated enclosures can withstand circulating talcum powder for 8 hours, and water immersion to 6.6 feet/2m for 1 hour.

This means the Galaxy S III survives water submersion to 6.6 feet/2m for one hour, plus exposure to dirt, dust and snow without worry.

SPECS

DIMENSIONS 3.1" x 5.8" x 0.60" / 80 mm x 148 mm x 15.2 mm

WEIGHT 1.76 oz / 50 g

MSRP \$79.99

ONE CASE. FOUR PROOFS.

WATER PROOF

Fully submersible to 6.6 feet / 2m for up to 1 hour
This level of waterproof protection goes beyond accidental spills, splashes and surprise weather. Users can take their Galaxy SIII swimming, surfing and rafting. They can shoot underwater videos. Listen to music in the shower. Read in the tub. And, simply wash it off in the sink when it gets dirty.
For more details see IP-68 under Lab Tested.

DIRT PROOF

Totally sealed from dirt and minute dust particles
The same standards for water protection also seal Galaxy SIII from dust, dirt and sand. Users can take their device hiking, biking, hunting and fishing. They can use it on the job, on the field or on the beach. Dirt, dust, sand, grit and mud stay out, while Galaxy SIII stays up and running.
For more details see IP-68 under Lab Tested.

SHOCK PROOF

Survives drops from up to 6.6 feet / 2m
The number-one reported cause of wireless device destruction is dropping. It slips out of the user's hand, falls off their lap, drops from the car roof or gets knocked from the table. LifeProof frē is built to stringent military specifications for drop protection, safeguarding Galaxy SIII from the most common mishaps.
For more details see MIL STD 810F-516 under Lab Tested.

SNOW PROOF

Completely closed to sleet, snow and melting ice
Since frē has no problem keeping water and dirt out, it's perfect for protecting Galaxy SIII from melting snow, ice and sleet. Traditional cases can actually wick water from melting snow, drenching the device inside. With frē, users can ski, snowboard, skate and sled without worry.
For more details see IP-68 under Lab Tested.

LIFEPROOF LINEUP

nüüd for Galaxy S III

nüüd protects Galaxy S III from drops, dirt, splashes and complete submersion — and opens the touchscreen to direct touch. Users can touch the actual screen while their Galaxy S III stays completely protected.
